Summary

Experienced Project Manager with over 3 years of experience in delivering customer-focused solutions. Skilled in strategic planning, goal setting, and ensuring customer satisfaction. Demonstrates strong organizational, time management, and problem-solving abilities to consistently deliver high-quality results on schedule.

Experience

Technical Project Manager – 2022 to 2023 | Mobileye

- Managed the lifecycle of multi-disciplinary projects involving 7.5 million vehicles, using Agile methodologies (Scrum and Kanban) to meet project requirements and priorities.
- Coordinated cross-functional teams within a matrix structure, ensuring timely project delivery using Jira and Confluence.
- Enhanced client relations by providing regular status updates, ensuring transparency throughout the project development process.
- Bridged communication between customers and the product team, reducing open customer tickets by over 55%.

PMO Information Systems – 2021 to 2022 | Ariel University

- Led the full lifecycle implementation of a project management platform using a hybrid Agile-Waterfall methodology, including detailed Gantt chart creation and step-by-step project mapping.
- Facilitated collaborative sessions with business stakeholders to gather in-depth understanding of client expectations and translate them into actionable system requirements.
- Demonstrated strong change management skills and proficiency in new technologies to integrate information systems, ensuring seamless user adoption through user-centered training initiatives.
- Successfully ensured the organization met regulatory requirements through the implemented changes, enhancing compliance and reducing risks.
