🏠 Rosh Ha'Ayin, Israel

## PROFILE

B.Sc. in Computer Science (with honors), combining academic knowledge with hands-on development experience.  
Worked on web interfaces and backend logic using Angular, Vue.js, PHP, and MySQL.  
Supported students in a full-stack course and strengthened practical skills through applied academic and team-based work.  
Looking to join a development team, keep learning, and take part in building software that solves real problems.

## EDUCATION

### B.Sc. in Computer Science (with honors)

Ono Academic College

📅 2021 – 2024

- **Academic Research Project - Developed a multi-agent network based on game theory and evolutionary algorithms, as part of an academic research initiative.**
- Project involved designing agent behavior, optimizing strategies through evolutionary computation, and implementing simulation logic in Java.
- Relevant coursework includes: Object-Oriented Programming (Java), Software Engineering, Algorithms, Operating Systems, Databases.

### Full Stack Web Application Course

INT College

📅 2020

### High School Diploma

Lamerhav

📅 2008 – 2011

## RELEVANT EXPERIENCE

### Full Stack Web Developer

Visto - TestM

📅 2021 – 2022 Herzliya, Israel

- Maintained and enhanced a customer management system by developing new features and improving existing functionality.
- Worked as a full stack developer on the WebView component of the company's mobile app, handling both frontend and backend tasks.
- Developed a dynamic WebView flow system that adapted to client-specific requirements, allowing the application to present customized behavior and interface per customer use case.
- Technologies used include Angular, Vue.js, PHP, and MySQL.

### Teaching Assistant - Full Stack Course

INT college

📅 2020 – 2021 Tel-Aviv, Israel

- Supported students with assignments, projects, and code reviews.
- Led hands-on coding sessions and provided one-on-one assistance in HTML, CSS, JS, and backend technologies.

## TECHNICAL SKILLS

Gained practical experience through academic projects and training with the following technologies:

**Languages:** Python, Java, JavaScript  
**Web:** HTML, CSS, REST APIs  
**Frameworks:** Angular, Vue.js, Node.js  
**Databases:** MySQL, MongoDB  
**Familiar with:** PHP, C/C++

## LANGUAGES

Hebrew - Native

English - Proficient

## MILITARY SERVICE

### IDF Combat Soldier - Nahal Brigade

📅 2011 – 2014
