SKILLS

Client Side
React   Redux   TypeScript
Html   Css   JS (ES6+)

Server Side
NodeJS   NestJS   ExpressJS
PHP

Databases
MySQL   MongoDB

Architecture & DevOps
GCP   Azure   Docker
Git   CI/CD   Jenkins
Microservices

Testing
Jest   PHPUnit

Workflow
Agile   Scrum   Jira

Tools & Design
Figma   Storybook   MUI

PROFILE

Senior Full Stack Developer with 8+ years of hands-on experience building scalable, high-performance web applications using React, TypeScript, Node.js (NestJS, Express), and cloud technologies. Specialized in modular front-end architecture, API integration, and microservices. Proven ability to collaborate in Agile environments, conduct thorough code reviews, and contribute to clean, maintainable, and production-grade solutions.

WORK EXPERIENCE

Full Stack Developer, Elementor
2021 - 2024

- Developed and maintained the cloud product using React, TypeScript, and Node.js (NestJS & Express) in a cloud-based GCP environment.
- Built and maintained RESTful APIs to support internal microservices, using NestJS for modular architecture and Express.js for lightweight endpoints.
- Contributed to a scalable microservices system, enabling efficient service communication and modular development.
- Collaborated in cross-functional Agile teams, using Jira for sprint planning and backlog management.
- Led and participated in code reviews to ensure high code quality and adherence to architectural standards.
- Used a design system and Storybook for consistent, reusable UI components across the product.
- Leveraged CI/CD pipelines (GitHub Actions) for rapid, reliable deployments.

Full Stack Developer, CET
2019 - 2021

- Led end-to-end development of new websites using PHP and JavaScript, from initial planning through deployment.
- Maintained and enhanced existing WordPress sites, including custom plugin development and third-party API integrations.
- Took ownership of 50 externally developed websites, migrating them to internal management—modernized codebases, upgraded PHP versions, and ensured long-term maintainability.

Full Stack Developer, OpenTech/KMT (via OpenTech)
2015 - 2019

- Developed a custom website from scratch for **Manpower**, including API integrations, template creation, plugin development, and database management.
- Maintained and enhanced **Invictawatch.com**, leveraging Laravel for back-end development and Angular for front-end features, ensuring optimal performance and seamless user experience.

Full Stack Developer, Investing Academy
2014 - 2015

- Maintained and developed a WordPress multisite for Investing Academy, including API integrations, custom templates, plugin development, and database management to ensure smooth functionality across multiple sites.

EDUCATION

Bachelor's Degree in Software Engineering - Afeka Tel Aviv - 2016.

Military Service

C4I Corps (Telecommunications & IT) - 2008 - 2010
